

March 2015

AATC have won a five year contract with Ratier Figeac.

Ratier Figeac is a UTC Aerospace Systems company based in Toulouse France. From its origin in 1904, Ratier-Figeac is a leading supplier of propeller systems, and a pioneer in French and European Aerospace Industry. The company's reputation and development is based on more than 100 years of aerospace challenge and evolution.

Ratier-Figeac is now world leader for large propeller systems and a major equipment manufacturer for all major airframes and aerospace manufacturers. Customers include Airbus, Bombardier, and Goodrich.

We are looking forward to being a part of the Ratier Figeac family.
